

AIR/TAK

Compressed Air System Products

ENGINEERED SOLUTIONS

Petro Chemical Industry

APPLICATION:

Dry process control compressed air at natural gas refinery

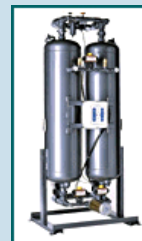

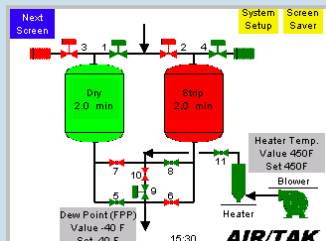

- 2 3000 SCFM dryers
- -40 degree F required dewpoint
- Monitor pressure all across the dryers
- Harsh Petro Chemical environment

AIR/TAK SOLUTION:

- Modified HLD-3000 heatless dryers
- Nema 7 class 1, Div 2, Group C & D
- All SS tubing & instrumentation
- 11 pressure transducers to monitor pressure differentials
- PLC controls with dewpoint display and data trending
- 1/8" corrosion allowance
